

THE LIQUOR LAW.

Perhaps we should have said Anti-Liquor Law, but no matter, the head of an article is very like the same part of a great many bipeds, really a non-essential. An old proverb runneth somewhat thus: "Hope deferred maketh the heart sick," and the heart of many a man has sickened while waiting judicial decisions upon points involving the constitutionality of the Prohibitory Liquor Law. But, in the end we have a decision, and such a decision. Last Monday Judge Douglass rendered his final decision in the cases which were reserved by him for the opinion of the Supreme Court. In deciding the Collins case, upon which the Supreme Court was equally divided, he considers the law a nullity, and reverses the judgment below. In deciding the Hawley case, he acknowledges the action of the higher Court, and renders judgment against the defendant. Like the Supreme Court, Judge Douglass is equally divided, and the same day decides both ways.

This may be law, we are no lawyer; it may be justice, but we don't believe it. Of one thing we are certain, it is not common sense. Could the same judge, upon the same day, regarding law, justice, or sense, order entered upon the docket a fine against Hawley, and no fine against Collins, a violation of the same law being charged and proved against both individuals? It is useless to plead the decision of the Supreme Court in the one case, and an equal division in the other. The equal division was no decision, and could not affect the constitutionality of the law in the least. In the other case there was a decision which common sense and court rules—not pettifoggery or interested liquor-editors—tell us is binding in all cases, and upon all inferior courts until it is reversed by the superior court.

Judge Douglass may have acted honestly, consistently and independently; we will not dispute it. We leave that question for himself to decide. But we shall not attempt to defend him before a Court composed of outraged and indignant people. He must engage the services of constitutional rumblers. [Coldwater Sentinel.]

EFFECTIVE FORCES LIKELY TO BE INVOLVED IN THE PENDING EUROPEAN WAR.—Population of Russia 65,931,970. Troops of the line 594,000. Irregulars 412,000. Total force in 1848—1,006,000.

The Navy is composed of 45 ships of the line, and 30 frigates.

The population of Turkey is 35,350,000; of these about two-thirds are Mussulmans. The army in time of peace is composed of 448,860 men, but increased in the time of war to about 600,000.

The Navy consists of 4 ships of the first class, 13 of the second, and 14 frigates, mounting 2,286 guns, and carrying about 17,000 men.

England and her dependencies comprise a population of 235,632,046—of which about 100,000,000 are in their East India possessions. The regular army embraces about 162,000—increased by the aid of irregulars as circumstances may require.

The British Navy consists of 468 ships and vessels, forming an aggregate of 560,000 tons. The population of France is put down at 36,594,196.

The army on the first of January, 1853, amounted to 502,980, which, with the "reserves," so called, constitute an aggregate of 730,000 men.

The French Navy consists of about 120 ships, all in the highest state of efficiency.

The Austrian army, reserves included, a little short of 600,000 men.

The Navy consists of 27 vessels, mounting 540 guns. Population 37,533,753.

The population of Prussia is 16,346,625. The army comprises 614,000 men. The navy is yet to be inaugurated.

Denmark has a population of 2,450,000. The nominal strength of the army is stated to be 32,781 men. The Navy consists of about 37 vessels carrying 980 guns.

Sweden and Norway comprise a population of about 5,000,000. The army consists of about 34,000 men.

The Navy consists of about 60 vessels of all classes, and 400 guns.

RECAPITULATION.

Russian Army	1,006,000
Turkish	600,000
English	162,000
French	730,000
Austrian	600,000
Prussian	614,000
Danish	32,781
Swedish & Norwegian	34,000

This does not embrace the Naval force, but of these England has nearly twice as much as all the other countries combined.

It is not to be supposed that a general war even would bring all the forces mentioned above into action, yet the aggregate presents a striking picture of the manner in which the world is governed. Here are nearly four millions of men employed to keep a few States in order!

THE BEARD.—Each hair composing the human beard is furnished with a distinct gland, elaborately and beautifully complete. Underneath are innumerable nerves, immediately connected with the various organs of the senses ramifying in every direction, and performing important functions. In shaving the upper lip with a dull razor every one has noticed that the eyes water, showing a connection between the nerves of the beard and those of the eyes. Many cases of weak eyes, according to good medical authority, may be traced to the removal of the beard. This hair, when in full growth, forms a natural protection to the nerves, and also holds, as it were in suspension, a quantity of warm air, through which the cold air in breathing passes, and then becomes rarified and tempered, and fit to come in contact with the lungs.

"Dear me! dear me!" exclaimed Mrs. Partridge, in great trepidation, as she was reading of the juvenile performances at a school exhibition. "Only think of it—a little boy only four years old, mounting the rostrum! How incoherently some people are! I wonder the little fellow had not been thrown off, and broke his capitol, or had his indigestion hook'd out!"

The Rochester Democrat says: "It is said that the propeller Ontario, formerly owned here, and plying on the Lakes, has at length become a Slave, and that a cargo of slaves was recently landed from her on the island of Cuba."

JOY TO THE WORLD!
PERRY DAVIS' PAIN KILLER.

For the entire eradication of all Pain. EXTERNAL AND INTERNAL REMEDY! NO FAMILY SHOULD BE WITHOUT IT! One twenty-five cent bottle will do more to convince you of its efficacy, than all the advertisements in the world!! IT IS WHAT ITS NAME DENOTES, A PAIN KILLER.

Physicians say that Davis' Pain Killer is one of those nice little articles which is calculated to relieve an immense amount of suffering incident to human life. Its action on the system is many times like magic—so instantaneous—the pain is gone at once.

For the almost miraculous extinction of pain, no medicine was ever discovered equal to the Pain Killer. It is used in certain cases externally, and internally, but never externally, like too many preparations. Full directions accompany each bottle.

Perry Davis' Pain Killer almost immediately cures the following complaints, viz: Cholera and Fever, Cholera, Cholera Morbus, Diarrhoea, severe Burns, Dyspepsia, Painters Cholic, Piles, Boils, general Debility, Coughs, Headache, sudden Colds, swelled Joints, Cramps and Spasms, Rheumatism, Pains in the Back and Side and various other complaints, in fact it is a PAIN KILLER!

Notice to Dealers in Pain Killer.
The name of Pain Killer belongs exclusively to the Proprietor of the medicine. That right has been recently sustained by a court of law, and any person found selling an article by that name, and not of the manufacture of Perry Davis & Son, will be prosecuted.

Beware of a "Pain Killer" manufactured by one Andrew J. White, Buffalo, N. Y. It is a base counterfeit, and all other preparations in name of "Pain Killer" that is not manufactured by Perry Davis & Sons are spurious compounds calculated to deceive the people. Buy of regular agents, and take none but Perry Davis' Pain Killer. You will then get that which will give you every satisfaction desired.

Principal office for the sale of the genuine Perry Davis Pain Killer, in the southern and western States, No. 7, Colledge Building, Cincinnati, Ohio.
